The Site or Web Site means all information, content, concepts, program interfaces, structures, functionality, computer code, published materials, electronic documents, graphic files and other technology inherent in ACM's World Wide Web Site located at [www.acmtech.com](http://www.acmtech.com).

(ii). Software

The Software, if any, includes all concepts, users and program interfaces and structures, functionality, computer code and other technology inherent in all computer software programs and all copies of the software supporting any of ACM's electronic commerce tools and products. You may make and maintain one copy of the Software per employee making authorized use of the Software

(iii). Databases or Informational Databases

The Informational Databases or Database includes all information accessible from ACM through the Software or the Site, which may include, but is not limited to, data structures, technical and other specifications, pricing, advice, and other data and information. All data and other information available on the Informational Databases is proprietary, confidential and the sole property of ACM or third parties licensing such information to ACM.

### 2. Security

You must enter a valid user ID and password ("access codes") to use certain Software, access some of the Databases or access the Web Site's secure areas. It is your sole responsibility to monitor use of these access codes for all purposes, including, but not limited to ordering. You accept all responsibility for the security of your user ID and password, and utilization of the Software, Informational Databases or Web Site via the access codes. This includes unauthorized access by your employees or third parties, except for access by third parties resulting from ACM's sole negligence. You have the ability to modify your password at any time. ACM recommends you modify your password regularly. Notify ACM immediately if you wish to terminate your master user ID and password or have these access codes reissued. Do not disclose your access codes to anyone not authorized to act on your behalf.

### 3. Order Validity

You agree not to contest the validity or enforceability of orders placed via the Software or through the Web Site's secure areas under the provisions of any applicable law. All orders placed using the user ID and password shall, for all purposes, be deemed to be in writing signed by you and will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form.

### 4. Terms and Conditions of Sale

Unless otherwise stated an express written agreement signed by an officer of ACM, the terms and conditions contained on ACM's written invoices, the catalog, and available on line, as amended from time to time, shall apply to all transactions initiated via the Software or through the Web Site. ACM's terms and conditions of sale may vary depending upon the country from which you are ordering or the subsidiary with whom you do business.

### 5. Termination and Modification

ACM may elect to update, modify, change or terminate all or any part of the functionality available through the Software or Informational Databases or Site, including modification or termination of the ability to place orders or make inquiries at any time in the future. ACM may modify this Agreement from time to time. Any amendments or modifications may be provided to you through on-line notice. You agree that use of the Software or access to the Informational Databases or Site after you have, or should have received, notice of modifications or amendments to this Agreement will constitute acceptance of all such modifications or amendments. You agree on termination of this Agreement immediately to cease accessing the Informational Databases and to return any Software provided. The Software, Informational Databases, and the Site's secure areas are confidential information of ACM or companies licensing ACM and contain copyrighted information.
