

Acquisition Press Release

Headline: ACM Technologies, Inc. announces the acquisition of Royal Imaging International to become one of the largest distributors in the imaging supplies industry.

Corona, CA (January 01, 2022) – ACM Technologies Inc, a leading distributor of imaging equipment and supplies is proud to announce its acquisition of Royal Imaging International, a wholesale-distributor of office imaging supplies with over 40 years of experience in the industry. The combination of the two companies will provide significant benefits to customers in the form of an expanded distribution footprint, increased product selection, enhanced service levels, and cost savings from improved economies of scale.

“We are thrilled to bring Royal Imaging on board. We have been a long-term partner of Royal Imaging for the past 30 years, and greatly admire the business that has been built. With the combined entities, we will be able to provide a breadth of product and service that is unmatched in the industry” said Ben Lin, President of ACM Technologies, Inc.

“After a significant amount of time spent looking for the perfect partner, the only choice was ACM Technologies, another family-owned business with the same standards for creating the best possible customer experience. Royal Imaging International’s customers will have the benefit of state-of-the-art technology and software platforms, increased distribution facilities and the buying power of the combined entities. I look forward to joining the ACM team as Director of Global Sales,” states Tom Ghyczy, President & CEO of Royal Imaging International.

Royal Imaging International will retain its current leadership and staff. Efforts to fully integrate the two companies will begin immediately in order to provide the customer base of both companies with the value add and synergies of a combined entity.
